Call for experts

Dear Member

The Society for General Microbiology is involved in promoting the public understanding of microbiology through education, outreach, media and government. We produce educational resources, organize public events, take enquiries from journalists and respond to relevant consultations. We also publish reviews of the latest microbiology books through *Microbiology Today* – our members' magazine

As an expert in your field we need your support to carry out these important activities. If you are interested in helping us, please take a few moments to complete the form below and return by email to Yvonne Taylor at y.taylor@sgm.ac.uk

Please note if you have already agreed to be an expert in the past we would still like you to complete the form as we are updating our expert's database.

Thank you.

Would you like to be listed as an expert for: (tick boxes):

- | | | | | | |
|-----------|------------------------------|-----------------------------|---------------|------------------------------|-----------------------------|
| Education | <input type="checkbox"/> Yes | <input type="checkbox"/> No | Consultations | <input type="checkbox"/> Yes | <input type="checkbox"/> No |
| Outreach | <input type="checkbox"/> Yes | <input type="checkbox"/> No | Book reviews | <input type="checkbox"/> Yes | <input type="checkbox"/> No |
| Media | <input type="checkbox"/> Yes | <input type="checkbox"/> No | | | |

Area of expertise: (please tick those that are appropriate)

Application

- | | |
|--|--|
| <input type="checkbox"/> Microbial diversity and evolution | <input type="checkbox"/> Food microbiology |
| <input type="checkbox"/> Environmental microbiology | <input type="checkbox"/> Education |
| <input type="checkbox"/> Clinical and medical microbiology | |

Microbial group

- | | | | |
|-----------------------------------|----------------------------------|----------------------------------|---------------------------------|
| <input type="checkbox"/> Bacteria | <input type="checkbox"/> Viruses | <input type="checkbox"/> Fungi | |
| <input type="checkbox"/> Protozoa | <input type="checkbox"/> Algae | <input type="checkbox"/> Archaea | <input type="checkbox"/> Prions |

Microbial subgroup (where appropriate, please specify, e.g. Gram-positive bacteria, RNA viruses)

Organism(s) (where appropriate please specify, e.g. E. coli, HIV)

Please describe your specific area of expertise using no more than 5 keywords, e.g. oral microbiology, oral biofilms, bioinformatics, quorum sensing and virulence factors.
